Physician Consult Request for Prior Authorization Information Research and Transmittal

Dear Pharmacy Benefit Manager,

Thank you for your physician consult request. As a covered entity you can access your client's needed medical information directly without having to go through their physician. To avoid delay and extra expense involved with having the physician research the record, I have enclosed a copy of the patient's record here.

Please help us provide better care to your clients by helping to lift some of the non-clinical administrative burdens that can (and should) be performed by administrative staff trained for such work, instead of taking the physicians and providers away from the care they are trained to do. In most cases your staff can easily retrieve the information you need much more efficiently and effectively than clinical providers.

If you still feel you need the physician/providers expertise to assist you in performing your managerial data gathering duties, please remit \$99.00 payable to Ben Hagopian, MD to help defray the costs involved with your request.

Please fill out the form below so we can either, 1) prepare your request in a timely manner or 2) know that you have taken responsibility for your job and let us get on with ours.

Name of Pharmacy Drug Benefit Management Entity

Date

_____ **We will need the expertise of a physician or clinical provider to perform our managerial duties and have enclosed \$99.00 check payable to Ben Hagopian, MD. Please send to address above. PA will be completed upon receipt of funds.**

_____ **We will use our own resources and staff to perform our managerial duties and will not need the expertise of a physician or clinical provider to gather the needed data. (Please fax to 207-888-9880)**

We look forward to partnering with you to help provide our patients (your clients) with exceptional, cost-effective care.
